Profile

I am a 19-year-old student pursuing CSE at L.J University who is deeply interested in web development, focusing on the MERN stack. My journey into coding began as a personal fascination, which has since evolved into a dedicated pursuit of web development excellence. Through hands-on experience with HTML, CSS, JavaScript, React, Node.js, and MongoDB, I've acquired practical skills in both front-end and back-end development.

I'm eager to embark on a web development internship to apply my knowledge and learn from experienced mentors. My goal is to further cultivate these collaborative skills and apply my technical expertise in a real-world professional setting. With a strong commitment to continuous learning, adaptability, and a genuine passion for web development, I'm excited to make a meaningful impact in this field. Joining a dynamic team and working on innovative projects while advancing my own growth as a web developer is my goal and aspiration.

Education

VALLABH
VIDHYANAGAR

DIPLOMA IN COMPUTER ENGG.
BHIKHABHAI INSTITUTE OF TECHNOLOGY

AHMEDABAD

BACHELOR OF COMPUTER SCIENCE ENGINEERING
L. J . INSTITUTE OF ENGINEERING & TECHNOLOGY

Technical Skills
