## ABOUT ME

I have been working in an upcoming organic agricultural firm for the last few months gaining experience in web development, software development along with graphical designing, client management, problem solving and been analysing the market for increasing in sales upto 10% by making changes for the product as an assistant product manager. I am also a google certified intermediate digital marketer.

## WORK EXPERIENCE

### ASSISTANT PRODUCT MANAGER AND DEVELOPER

SAHAJ ORGANICS | AHMEDABAD

APR 2022 - OCT 2022

Assistant Product Manager: Negotiated Contracts with distributors resulting in an average reduction of 5% in development expenses, while also establishing effective distribution networks in key markets. Monitored market and competitor trends, and analysed customer feedback data, leading to 3 key product feature changes during tenure.

Developer: Developed a monetary management system along with employee management system using Java-JDBC with sql connector API.
